OCT-2014 – SEP-2018

Worked on Insurance domain **product PREMIA** (developed by 3i-infotech) for South African client. Worked on Enhancement, Development, Support and Implementation of all parts of the product, with knowledge of Oracle Forms / Reports, Oracle BI-Publisher, Oracle PL/SQL in modules like Underwriting, Claim, Policy, Quotation and many more integrated parts of the domain, with tools like PL/SQL Developer, JIRA, VCRA, SoapUI, Eclipse and XML. Also have experience of working with clients, and business team at client location for requirement analysis. Worked on advance features of PL/SQL as Collections and Performance Tuning.

Sr. Software Engineer | NIIT-Technology

OCT-2018 – MAR-2019

Worked on Airline domain **product MonaLisa** (developed by NIIT Technology) for multiple airline as clients world-wide. Closely worked in Passenger Revenue Accounting, Tax(Data provided by IATA and ATPCO) and reporting parts of PRA domain with Oracle forms, Oracle reports and Oracle PL/SQL, with tools like PL/SQL Developer, OTRS and QVCS. Resolving support issues have worked on advance features of PL/SQL as Collections and Performance Tuning.

IT Analyst | Tata Consultancy Services

MAR-2019 ---- TILL DATE

Working on Investment Banking project of FS domain in AGILE model of software development. Using Oracle SQL, PL/SQL for new enhancement for real time demanding features and doing support for existing modules. For new module's enhancement and in support issues also using advance features of PL/SQL as Collections and Performance Tuning.

SKILLS & OS TOOLS

- Oracle Forms / Reports
- Oracle SQL, PL/SQL
- My SQL
- SoapUI
- SQL Developer
- PL/SQL Developer
- Eclipse
- QlikView
- Control-M
- Python
- Windows - 98, XP, 7, 10
- Linux
- Oracle BI Publisher
- JIRA, Rally, OTRS
- GIT, VCRA, Sourcetree, QVCS, Bitbucket
- HTML, XML
- Core Java
- Java Script
- JQuery
- OBIEE
- Confluence
- PostgreSQL
- Oracle VM
- Azure-VM

SOFTWARE DEVELOPMENT LIFECYCLE:

- Waterfall Model
- Agile Software Development

ROLE & RESPONSIBILITIES PERFORMED

My roles in **3i-infotech** were as a Product developer for **PREMIA**, and in modules developed by me support also.

I have been involved in Requirement Analysis, Product enhancement, implementation for different modules.

Creating Procedures, Packages and other required database objects for new or existing parts of Insurance domain product named PREMIA. There I have worked with Underwriting, Quotation, Policy, and Claims like different modules. Using SoapUI, PL/SQL, Oracle Forms for integration testing.

In **NIIT-Tech** on product **MonaLisa**, I have been involved in PRA module's reporting and support part for multiple customers. And there I got chance to work on TAX module also, where tax-data used to come from organizations like IATA and ATPCO. And we used to process those data and apply on clients ticketing system.

I did Enhancement and Implementation of whole new tax system for multiple customers.

In **TCS(Tata Consultancy Services)** I have been working on Investment Banking domain as a member of Production Enhancement & Support team to deal with new feature's developments and daily basis financial issues. Enhancement like any real time requirements which comes as per client's demand, and here we get financial transaction related issues which get stuck or having problems with initiations. We need to be mitigating current transaction and get the root cause of the issue to stop that happening again in future.

Also coordinating with team to manage each Sprint's requirement and to conduct efficient Scrum Call and Retrospective.
