SUMMARY

I am a Java Full Stack Developer fresher with a solid understanding of Java, HTML/CSS, JavaScript, and frameworks such as Spring and Hibernate. I also have a working knowledge of DBMS and SQL, enabling me to integrate databases into web applications. I am proactive, detail-oriented, and committed to continuous learning. I work well in a team and possess excellent communication skills. I am eager to contribute my skills and knowledge to deliver top-quality web applications.

EDUCATION

Aug 2020 - Jul 2022	Masters Degree: Masters of Computer Application Marathwada University	80%
Aug 2015 - Jul 2020	Graduate Degree: B.Sc. in Computer Science Nagpur University	65%

PROJECTS

Personal Finance Management Web App

- **Description:** Developed a web application using Java, Spring, Hibernate, and MySQL for managing personal finances. Implemented features such as expense tracking, budget planning, and goal setting to help users effectively manage their money. Used HTML/CSS and JavaScript to design and create a responsive user interface. Collaborated with a team of developers to ensure the project was completed on time and met all requirements.
- **Technologies Used:** Java, Spring Framework, Hibernate, HTML/CSS, JavaScript, SQL

Task Master: A User-Friendly Task Management System

- **Description:** A web-based task management system that allows users to create, assign, and track tasks in real-time. The system includes features such as task prioritization, deadline tracking, task assignment, and progress tracking. The system is designed to increase productivity and improve task management efficiency.
- **Technology Used:** Java programming, Spring framework, Hibernate, HTML/CSS, JavaScript, Bootstrap framework, MySQL, User authentication and authorization
