Project in BE CSE:

- **Project Title:- An Intelligent SMS Based Water Meter Integration.**

Role : Team Member.

Platform : PHP.

Team Size : 4

Duration : 12 Months.

Description: The main aim is measure the actual reading of the water by meter. In this project we are using one Flow sensor and one Data Logger. The Flow sensor which is used to sense the how much water goes from inlet to outlet. They do not measure the air they works with only liquid. Data Logger receive the how much water used by customer from flow sensor and generate the bill. And that bill sends to customer and server.
