- **9 months of experience in TechMahindra, Hinjewadi, Pune as Software Engineer**

Trainings:

- **Aug 2013 – Dec 2014: Internship in BSNL (EETP Training Course) which was approved by AICTE.**

Projects Handled:

Title: School Management System

Role: Application Developer.

Environment: Spring Hibernate Integration Framework, J2EE, JSP, HTML, MySQL

Web Server: Apache Tomcat 8.0

Details: This is a school management system that utilizes the latest technology to facilitate a new managerial experience for the principal and teachers of a school. CELTEIMS also helps parents to be updated on the academic progress of their children and provides an effective parent–teacher interaction mechanism. This has features to manage attendance, academic activities, co-curricular activities and also the religious activities and discipline within the school. The principal and teachers can view the progress of a student at an individual level as well as at class and grade level, which provides a good measure of the student’s progress within the school.

Responsibilities:

- Developed User Interface for pages using JSP, HTML and CSS.
 - Worked on Hibernate and Spring Integration Coding.
 - Created Jasper Reports and integrate it with Coding.
