Qspiders Nagvara (08/2019 - 12/2019)

PERSONAL PROJECTS

Development of Automatic speed control using RFID Equipped Model
(02/2019 - 04/2019)

- The main objective is to design an electronic control unit meant for vehicle's speed control, which can run on a embedded system. To develop an RFID equipped system which monitors the speed of the vehicle and automatically controls it without driver intervention. To intemidate the driver about the zones and the speed limit automatically.
