B.E. Information Technology

9096455472 / 9324863003

[afroz.sayed@gmail.com](mailto:afroz.sayed@gmail.com)

Taloja, Navi Mumbai

## Academic Details

Year	Degree	Institute	Percentage
2021	B.E. Information Technology	SIES Graduate School of Technology, Nerul	64.60%
2015	Class XII HSC - PCMB	Rosary Jr. College, Pune	58.92%
2013	Class X SSC	Rosary High School, Pune	67.82%

## Major Projects

### AboutTheHealth: A Healthcare System

Healthcare changes dramatically because of technological developments. The importance of health care is immense in a society and over the past years, this sector has been evolving to produce a more efficient and computerized system. Therefore, considering this we made a website that fulfills the following.

Objectives:

1. Diet plan generation using random forest.
2. Calorie estimation model using convolutional neural networks

## Internship

### Datamining and Analysis:

Did a basket analysis on supermarket dataset to find the nutritional intake of the customers. Successfully applied clustering algorithm to group customers into healthy, semi healthy and unhealthy eaters.

SIES Graduate School of Technology, Nerul

## Courses

### Python and Django framework

Udemy (Ongoing)

## Skills

- HTML (Level: Intermediate)
- SQL (Level: Intermediate)
- Python (Level: Intermediate)
- MS-Office (Level: Intermediate)

## Achievements

- Participated in Projexions 2.0 Presented a project on “Home automation using google assistant”. Placed in the top 8 teams out of 26 teams.
- Volunteered and did marketing for Pictionary held during cognition'16.

## Strengths

- Good observational skills
- Good speaking and listening skills
- Openness to feedback
- Intellectual curiosity
