To work in an environment which encourages me to succeed and grow professionally where I can utilize my skills and knowledge appropriately.

EDUCATION

Qualification	Year of Passing	Institute	University/Board	Percentage
BE	2022	Sanjay Ghodawat Institute, Atigre.	Shivaji University, Kolhapur.	70.77%
HSC	2017	Govindrao Junior College, Ichalkaranji.	Maharashtra State Board	70.00%
SSC	2015	Bharati Highschool, Shahpur, Ichalkaranji.	Maharashtra State Board	88.60%

PROJECT

Mini Project:

- **Carbon Dioxide Emission Prediction Using Multiple Linear Regression**

To determine whether given vehicle meets Government prescribed emission norms and not harming the environment, the system can be built where it takes information about the vehicle's as input parameters. Based on these parameters the carbon dioxide emission prediction is done.

Mega Project:

- **Privacy-Preserving Approach Using Encrypted Cloud Database**

The public nature of cloud computing poses significant implications to data privacy and identification. Cloud data is often stored in plain text and few companies have an absolute understanding of the sensitivity levels their data stores hold. A recent report by the Cloud Security Alliance lists data loss and leakage as one of top security concerns in the cloud. To loss data security practices also harm on a personal level. Lost or stolen medical records, credit card numbers or bank details may cause emotional and financial ruin. Sensitive data stored within cloud environments must be safeguarded to protect its owners. So different architectures are designed to overcome the privacy issues.

- Software Requirement:
Font-End: HTML, PHP
Back-End: SQL

SKILLS

- **Technical Skill**

- Languages:
Java basic
C & C++ basic
- SQL Database:
Comfortable in writing SQL statements
Good understanding of SQL queries
