NAMRATA AGARWAL

Dob: 8th Sept 1995 (+91) 823-937-0519 namrataa63@gmail.com

EMPLOYMENT - EXPERIENCE 2.5+ YEAR

Software Engineer Metacube Software PVT LTD

December 2018 - Present

Responsibilities

- Building RESTful API and end to end integration to meet the project requirements and goals.
- Designing responsive UI pages and translating software design concepts and ideas into reality using front end technology.
- Designing Relational Data Models.
- Handling fee calculation, payment and integration with the Fee Microservices.

Project Details

- Metacampus is a future ready, cloud-enabled, collaborative platform for Schools and Colleges that can be
 accessed from anywhere, anytime. It enables teachers, students, administrators and parents to participate
 effectively in the overall learning experience and disseminates information seamlessly.
- Key Features:
 - o University level login.
 - o Automatic user creation under the college domain and role-based access control.
 - o Summarized dashboard designed as per user role.
 - o Registration, Notifications/Announcements, Reports, Fees, Attendance and Timetable design.

Trainee Software Engineer

Metacube Software PVT LTD

July 2018 - December 2018

- Gone through professional technical training of 5 months with classroom classes.
- As a part of a training project, build an application where users can register certain goals, make it approved by their manager and can keep track of their progress. Once the goal is completed, users can claim the goal and earn their points once the goal is evaluated by the evaluator.
