PROJECTS

- **Home automation using Bluetooth and android application**

  In this project, a home automation system is designed which can be controlled by any smartphone. The automation system connects with the smartphone through Bluetooth. The smartphone sends control signals to switch home appliances ON or OFF by an android app through a Bluetooth interface.

- **Resume Generator**

  In this project, I create a resume generator that helps to make resumes for freshers. In this project, students just enter the details of name, phone number, address, profile photo, education, experience, and social media links
  and then submit the details then it create a resume.

- **Notes-taking website**

  In this project, we can create different notes. This was created using HTML, CSS, bootstrap, and javascript.

TRAINING & WORKSHOP

- Online Android Development Training.
  Internshala Trainings**(8 weeks)**

AWARDS & ACHIEVEMENT

- **3 star in Codechef Coding, 450+Points in GeekforGeeks.**

SKILLS

Technical Skills

- **Languages**

  C (Intermediate)

  C++(Intermediate)

  Java(Intermediate)

  HTML(Intermediate)

  CSS(Intermediate)

  Javascript(Intermediate)

- **Database**

  MySQL

Soft Skills

- **Time Management**

- **Effective Communication**

HOBBIES & INTERESTS

- Reading tech blogs and articles
- Playing chess board games
