MR. SAHIL MOTWANI

Smotwani987@gmail.com | +91-8390639994

Objective

A keen software tester aspiring to work in a challenging position in Software Testing and Quality Assurance to build myself and empower the organization in our mutual growth.

Professional Summary

- 3+ years of industry experience in the area of End-to-End Software Testing & Automation Testing with a solid understanding of Test Planning, Test Design, Test Execution and defect reporting & tracking.
- Successfully rolled out various testing projects to production & with 100% test case automation.
- Developed in-house tools which significantly reduced everyday resource utilization proving it to be time and cost effective.
- Onboarded and provided Induction training to new recruits in FedEx Revenue.

Core Competencies

Automation testing| Manual testing |Selenium| Core Java| Testing Types – Unit Testing, System Testing, Integration Testing, End-to-End Testing, GUI Testing, Field Validation, Functionality Testing| Eclipse| HP-ALM| SDLC| STLC| Agile Methodology | Waterfall Methodology| QA|

Experience

Atos|Syntel

***FedEx | Associate Consultant** | 31st Jan 2018 – Present (3 Years 3 months)*

The FedEx Project domain deals with end-to-end testing to verify and validate revenue and GUI based applications to ensure meticulous testing. Along with project my work included team leadership and analysis to be presented to the client.

ITG's (Internal testing Groups) I worked on:

- **Pricing Regression Re-implementation Team**

  Role: Team SPOC
    - Identified key showstoppers and performed exhaustive regression testing.
    - Re-organized entire test bed and optimized test cases and test data.
    - Automated various redundant activities along with knowledge transition of automation through selenium.

- **Flex Team**

  Role: Analytical Lead
    - Created and presented test data analytical reports which helped FedEx strategize future corporate testing releases.
    - Reported & managed data errors in ~30,000 data entities spread across 12+ teams.

- Trained 15 teams to create new error-free data entities.
- Created and amended error management repository for existing and new members.
- Under Defect management, delegated and insured effective data error rectification.

- **FAME: Revenue Certification Team**

  Role: Team Lead
    - Led the team of 7 people to test 5000 test cases resulting in production roll out of the device.
    - Rolled out new shipping device by testing with 100% test case automation.
    - Logged and managed various development defects.
    - Automated Scanning process resulting in cycle time reduction.

- **Future Billing Options Team**

  Role: Team Member
    - Performed rigorous GUI based testing on new FedEx payment portal.
    - Automated day-to-day data compilation activities.
    - Identified payment portal bugs and logged showstopper defects.

Education

- B.E. in Information Technology with 6.96 GPA from Thadomal Shahani Engineering College, Mumbai in 2017.
- H.S.C. with 72% from Brijlal Biyani Science College, Amravati in 2013.
- S.S.C. with 79% from Dnyanmata High School, Amravati in 2011.

Awards and Acknowledgements

1) **Individual Values Award** for being **Adaptive** in first year of joining FedEx Project in July 2018.
2) **Team Award: Global** for automating resource activities which reduced project delivery time for future releases in Nov' 2018.
3) **SPOT Award** for dedication, commitment, leadership & timely quality deliverables in Dec' 19.
4) **SPOT Award** for best presentation skill in release rollout deck Jan' 20 in Flex Team.
5) **SPOT Award** for Test Case Automation in SHPC Team Project in Jul' 20.
6) Onsite client appreciations multiple times for proactive & innovative regular automation activities over multiple releases & 100% test case automation.
7) LEAN Idea recognition & publication for huge resource time reduction and process automation.
8) Adaptive Badge for demonstrating AGILE value for being quick-witted in Pricing Regression Project.
9) Completed SAFe Practitioner Agile certification.
10) Familiar with **BDD with Cucumber**, **TestNG**, **SQL Developer**, **Maven**, **Mainframe.**

Interests

- Gym/exercise and nutrition.
- Outdoor sports such as Badminton & Swimming.
