OBJECTIVE

A Professional having **2 years** of IT experience software testing industry in **Manual and Automation Testing** using **Functional testing**, **Nonfunctional Testing, Regression Testing, API Testing, Webservices Testing, Database Testing, Globalization Testing, UI Testing and Automation Testing with Selenium Web driver** looking for an opportunity where I can enhance my skills to a good level and hence can grow more in techno management side.

PROFESSIONAL WORKEXPERIENCE

Company : eClerx ,Pune

JUNE 2019 to till date

Designation : Software Test Engineer.

HIGH-LEVEL SUMMARY OF MY RESUME

- ➢ **2 years** of experience in Software testing **as a Software test Engineer.**
- ➢ Very good experience in **Telecom Billing and Investment Banking domain.**
- ➢ Proficient as **QA engineer in both Functional and Non Functional testing and Automation testing** process.
- ➢ Execute **test cases/scripts/scenarios** on schedule (**Functional**, **Systems Integration**, **Regression Testing, Back-end, Smoke Testing and Globalization Testing**), and **open defects** as needed
- ➢ Participate in troubleshooting and drive **root cause analysis** and resolution
- ➢ Experience in developing **Agile Sprint test plans**, **designing test cases**, **Executing** test case.
- ➢ Expertise in **Defect Tracking** and **Bug Reporting Tools** i.e. **HPALM, JIRA.**
- ➢ Solid knowledge of **SDLC**, **STLC** and **Defect life cycle.**
- ➢ Experience in working on **Manual test case execution. [Retest, Integration test, Regression test, System test, UAT test, production test, Smoke test, Sanity test, Compatibility testing].**
- ➢ Highly skilled in **reviews**, **defect reporting** and **tracking**.
- ➢ Prepared **Traceability** matrix to map use cases and **Test Cases**.
- ➢ Worked on **Agile** methodology and participated in **scrum** meeting.
- ➢ Experience using MySQL as front-end database utility tool to perform **database** testing.
- ➢ Experience in developing SQL scripts to validate the databases tables and reports data for database testing using **DML** and **DDL** commands
- ➢ Used tools like **Postman & SOAPUI** for **API** Testing.
- ➢ Performed Automation testing using Selenium on **Web based (Browser) application**.
- ➢ Experience in **Automation Testing** with the help of **Selenium Webdriver** with **core JAVA.**
- ➢ Good Knowledge of **OOPS concepts, Collection framework, Arrays and String Class in JAVA.**
- ➢ Evaluate the **functional** and **non-functional requirements for test-ability**, and use suitable cases for **automation**
- ➢ Develop/build **test automation strategy** and focus specifically on maximizing reusability for **regression.**
- ➢ **Design, build and execute automated tests** to validate data centric applications.
- ➢ Good understanding of Build Automation tool i.e. **Maven.**
- ➢ Have experienced in **Data Driven Framework**.
- ➢ Expertise in locating elements using **XPATH**.
- ➢ Knowledge on Repository management tool like **GitHub.**
- ➢ Identify **regression testing** needs and create and maintain an **Automated Regression Suite.**

- ➤ Work closely with **architects** to analyze the end-to-end scenarios, gather **requirements**, and design the **test cases** that needs to be automated.
- ➤ Maintain **automated scripts** utilizing the existing framework, adhering to coding standards.
- ➤ Creating **POM** and **Test** classes for the **framework** and using **TestNG framework** for the development of the Test classes.
- ➤ Experienced of working on **TestNG framework** and used **assertions** and **Annotations**.
- ➤ Experience in executing the test scripts in parallel for **IE, Firefox and Chrome**.
- ➤ Good communication, collaboration with proficiency at grasping new technical concepts quickly and utilize the same in a productive manner.

EDUCATIONAL SUMMARY

Bachelor of Engineering in 2019 From Nagpur University.

TECHNICAL SKILLS SET   TOOLS USED

- **Operating Systems :**   Windows XP, Windows 7,Windows 8 ,Windows10,LINUX .
- **Languages Known :**   SQL. Core JAVA and UNIX
- **Database   :**   Oracle 10g, SQL Server 2014
- **Management Tools :**   HPALM 12, JIRA
- **Automation   :**   Selenium webdriver, TestNg and Data Driven Framework.
- **Microsoft office**

PROJECT HANDLED:

Project #1– Title: Vehicles
Client: William Blair (US)
Domain: Investment Banking

Description:

This project refers to building enduring expertise and solutions to meet their evolving needs. It works closely with private and public pension funds, insurance companies, endowments, foundations, and sovereign wealth funds, as well as financial advisors. We are 100% active-employee-owned with broad-based ownership. Our investment teams are solely focused on active management and employ disciplined, analytical research processes across a wide range of strategies, including equity, non-equity, fixed income, and multi-asset.

Responsibilities:

- Involved in designing Test Scenarios and Test Cases.
- Actively participated in Peer Reviews of Test scenarios and Test scripts.
- Involved in Functional, Retesting, Regression and UI Testing
- Responsible for providing the test reports to Test Lead.
- Involved in the preparation of daily and weekly status reports.
- Performed the database testing with different testing methodologies like functional testing, boundary testing.
- Involved in identifying corner test cases to be verified for different browsers.
- Performing Functional Testing, Regression Testing and Re-Testing.
- Validation of Expected output vs Actual output in respective database tables Using SQL.
- Preparing transition document for other team members.
- Active participation in weekly/daily status calls with the client.
- Identify the test cases for Automation.
- Designing **POM** Classes and **Test Classes.**

Project #2– Title: Megapath BSS
Client: Amtelco (USA)
Domain: Telecom

Description:

MegaPath is a business telecommunications company, founded in 1996, that provides a Voice, Unified Communications, Internet Access, Managed Security Services, and Cloud Computing services to carrier and service-provider businesses in the United States. The company is headquartered in Pleasanton, California.

Megapath billing system is an effective and accurate billing system to be able to assure their revenue. Megapath Billing systems process the usage of network equipment that is used during the service usage into a Unique Call Detail Record (CDR). The billing process involves receiving billing records from various networks, determining the billing rates associated with the billing records, calculating the cost for each billing record, aggregating these records periodically to generate invoices, sending invoices to the customer, and collecting payments received from the customer.

Responsibility:

As a team member I was actively involved in the below phases of project:

- Understand the Business and Functional requirements to identify Test Scenarios.
- Created and executed the test cases for various scenarios, and participated actively in Functional Testing, validation testing, Compatibility testing, Retesting, Regression testing.
- Involved in preparation of daily and weekly status reports.
- Involved in Scrum meetings.
- Interacting with developers in resolving the bugs.
- Analyze customer requirement.
- Designing and Executing test cases from the Functional specifications.
- Participated in the Test case review meetings and send review comments to Team member
- Performed Functionality Testing, Retesting and Regression Testing.
- Interact with developers and discussed technical problems, Bugs Tracking and Generating Reports.
- Reporting the Regular status to the higher authorities in a timely manner
- Execute SQL queries to check table updates and data retrieval.

STRENGTHS

- Good understanding ability to quickly adapt to new Technologies and Tools.
- Strong Analytical, Communication and Interpersonal skills matched with the ability to manage Stress, Time and People effectively.
- Ability to manage work under pressure and with tight timelines.

PERSONAL INFORMATION

- **Name**   : Vaibhav.Rahangdale
- **Sex**   : Male
- **DOB**   : 25 OCT 1997
- **Alternate E-mail ID**   : vaibhav251097@gmail.com
- **Permanent Address**   : chinchwad pune.

DECLARATION

I assert you that the information furnished above are all true to my knowledge.

Date: **Place**: PUNE
