PROJECTS

Restaurant Management System
Mentor: Dr.Saumitra Sir | **Team Size:** 4
The Restaurant Management System helps the restaurant manager to manage the restaurant more effectively and efficiently by computerizing meal ordering, billing and inventory control is the main objective of this project.
You may not be at the restaurant at all times but you must have access to this data at all times and a robust restaurant management system helps you do just that..

Online Digital Marketing
Mentor: Miss Pooja Sankute | **Team Size:** 4
Digital marketing, also called online marketing, is the promotion of brands to connect with potential customers using the internet and other forms of digital communication.Web development is the structure behind building and developing a fantastic and responsive website for your business. I have done by Skype application .It can start from a single static page to a comprehensive list of applications and social network services.

Heart Disease Prediction Using Machine learning   08 Jun, 2022
Mentor: Mr.Dinesh S. Bhadane | **Team Size:** 4
To improve the performance of heart disease detection using machine learning technique and to achieve more accurate prediction for heart disease.The Motivation of our project is that In Today's hectic life nobody has time to detect the behavior of their life style.To achieve more accurate prediction for heart disease. The reason behind this is best and efficient techniques using nowadays .Machine learning is a subset model of artificial intelligence network in which uses complex algorithms and deep learning neural networks.

SEMINAR : Software System for Physical Activity Monitoring: Smart Watch Case   15 Sep, 2021 - 30 Sep, 2021
Institute Name: DPU pimpri

Key Skills: good language control and communication skill   Understand your audience   Control voice.

A smartwatch is a wearable computer in the form of a watch; modern smartwatches provide a local touchscreen interface for daily use, while an associated smartphone app provides for management and telemetry (such as long-term biomonitoring). While early models could perform basic tasks, such as calculations, digital time telling, translations, and game-playing, smartwatches released since 2015 or later have more general functionality closer to smartphones, including mobile apps, a mobile operating system and WiFi/Bluetooth connectivity.

EXTRA CURRICULAR ACTIVITIES

- DRAWING : Elimentary Competition , Intermediate Competition.
- National Lunguage Exam : Hindi

PERSONAL INTERESTS / HOBBIES

- Playing ,Time spend with Nature , Drawing , Singing a song etc
