PROJECT WORK:

- **Project Title: "Smartphone Based Wound Assessment For Diabetic Patient"**
  Project Description: The project is basically for Diabetics patients. On regular basis diabetics patient must go to clinic for visual examination of wound. So, this application reduces the efforts, time and money of patient. In this project, we propose patient app, doctor app and web admin also. By using this apps patients get severity of wound and provide assessment result to doctor. Then doctor provide some suggestions. Web admin app maintains the list and queries of doctor and patients.
